Various wiring and electronic parts marks are hot-stamped on the electronic blocks wiring. In order to minimize the number of blocks required for each experiment, a block may be used only as a lead in some cases. (That is, the connecting lead of the block is used, but not the electronic part in it. ) (Example) No. 4 Transistors and Vacuum Tubes

### 200 in 1 Electronic Projects Lab Kit - RobotShop

The Science Fair 200 in One Electronic Project Lab is an educational kit manufactured by Radio Shack in Taiwan in 1987, although an earlier version of this lab first became available in 1981. It is also identical to the modern incarnation known as Maxitronics MX-907, which has the same projects and is currently available online.

### Science Fair 200 In One Electronic Project Lab

I didn't have 160-in-ONE, only 150-in-ONE! I feel cheated. No wonder my life is only exactly 93.75% of what it could have been. ☹️ I remember hours and hours putting circuits together. I wish I could recapture that excitement.
