Beekeeping

Beekeeping (or apiculture) is the maintenance of bee colonies, commonly in man-made hives, by humans. Most such bees are honey bees in the genus *Apis*, but other honey-producing bees such as *Melipona* stingless bees are also kept.

Beekeeping - Wikipedia

In beekeeping, some details can be specific to your local area. The nature of beekeeping means that you'll be most successful if you have strong local resources to draw on: someone to come check your hive or help you find your queen if needed, for example. Reach out and find your local beekeeping association and go to meetings.

A Beginner's Guide to Beekeeping - The Spruce

Beekeeping, care and management of colonies of honeybees. They are kept for their honey and other products or their services as pollinators of fruit and vegetable blossoms or as a hobby.

Beekeeping | Britannica

Two main systems are used in beekeeping. One is called the Langstroth hive, and it's composed of boxes that are stacked on top of each other, each containing frames where the bees build their comb and store honey. You pull the boxes out like drawers to access the bees, harvest honey, and perform maintenance tasks.

Beekeeping for Beginners Step By Step - The Spruce

Beekeepers use different sized boxes (with corresponding different sized 'frames' inside, as seen here). There are boxes that hold 10 frames and are 9.5-inches tall, called deeps; some are...

Beekeeping 101: DIY Beekeeping, Supplies, Plans and Ideas

Beekeeping is local. Bees are directly influenced by their environment, therefore, their behavior and success varies greatly across climates. For instance, the busy foraging season for bees will be much longer in the warmer south than it will be in the north. Familiarize yourself with what beekeeping looks like in your neck of the woods.
