A little pricey, but may provide better results. You may also want to Google Gossen Luna Pro and see what you find. I saw some web sites with drawings on making your own adapters. I bought the Gossen adapter for the Luna Six and in the process of calibrating the light meter.

Gossen Luna Pro: Open Talk Forum: Digital Photography Review

Try Bogen, they're very good about supplying older manuals. Keep this site quiet, please folks, because ulnasix of these useful web resources get taken down by spiteful companies that can't be bothered to put their old manuals online themselves, but will move heaven and earth to stop other people providing that service for free.

GOSSEN LUNASIX MANUAL PDF - royalhostelcentrum.info

Thanks for that! I've read the Instruction Manual 3 times now, and I still can't find it. (My manual is the English version for the Luna Lux which I downloaded from Butkus <here> and I'm pretty sure it does not contain that useful bit of information.) But I was able to easily find that information in the Lunalite Instructions for Use manual. The two manuals are quite different.
