December 29, 2010. Planet Labs is founded by ex-NASA scientists, Will Marshall, Robbie Schingler, and Chris Boshuizen, with a goal to use space to help life on Earth. The founders and a small group of physicists and engineers began building Planet's first satellite in a garage in Cupertino, California.

Company | Planet

Homicidal maniac space clowns with an unhealthy interest in certain orifices. Thank you Hutchinson for adding fresh honking giggling horror toy nightmares. And introducing Space Hitler! This is by far the most demented crazy entry in the Space Team series and possibly the funniest. I was laughing and cringing the whole way through.

Amazon.com: Customer reviews: Space Team: Planet of the Japes

With Alan Young, Keye Luke, Ronnie Schell, Janet Waldo. A five-member superhero team called G-Force fights to defend Earth and its space colonies from the threat of the planet Spectra.

Battle of the Planets (TV Series 1978-2012) - IMDb

Space Team is a fast-paced scifi parody in the vein of Harry Harrison. Cal Carver is a low-level crook and con artist who's life takes a turn for the awesome, as he's abducted by a galactic government, assigned to a team of malcontents, and given a very important mission to retrieve a super-weapon and stop a civil war.

Space Team (Space Team, #1) by Barry J. Hutchison

Each NASA rocket launch takes years of work and hundreds of scientists and engineers working as a team. This ensures that a safe and reliable rocket is built to hurl humans into space! Once on the International Space Station (ISS), astronauts must work together to survive the hazards of space (just watch any space movie).
